

# Safety

**ŠKODA** AUTO Nadační fond

Quantitative research in the Mladá Boleslav Region  
Representative sample (weighted), 460 respondents  
Data collection: November, 2020 – February, 2021

ŠKODA AUTO Vysoká škola

· B·E·H·A·V·I·O

# People still feel rather unsafe in the Mladá Boleslav region.

### Satisfaction

59% are **dissatisfied** with safety in the region, the same percentage as in 2019. However, 50% of people think the situation is worse than last year. They want more safety cameras in the streets.

### Negative drivers

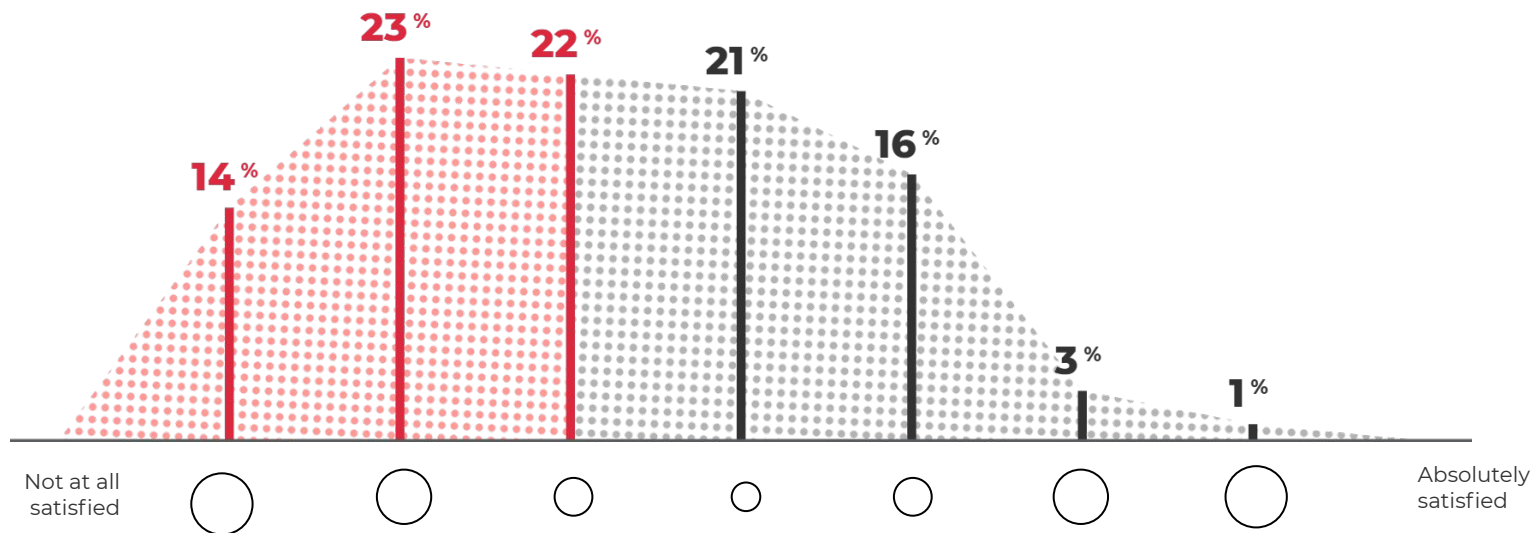

Major safety problems are foreigners, drunks and also hostels. These factors worsen satisfaction. However, **compared** to the previous wave, people do not see drug abusers and unadaptable foreigners as badly.

## 59% are dissatisfied with safety in the region.

In 2019 dissatisfaction was on the same level (59%).

# 50% think safety is worse than last year.

Compared to the safety situation last year:

It is better today

— 7%

It is the same

———— 43%

It is worse

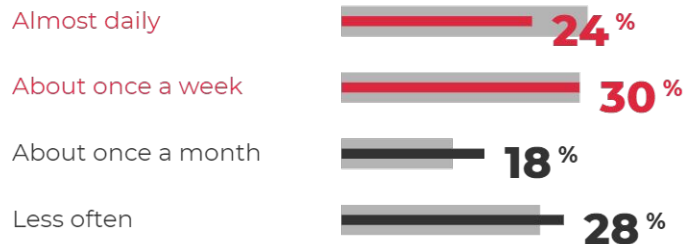

———— 50%

## 61% feel unsafe at least weekly.

Less people feel unsafe on a daily basis than in 2019 (when 31% felt unsafe every day).

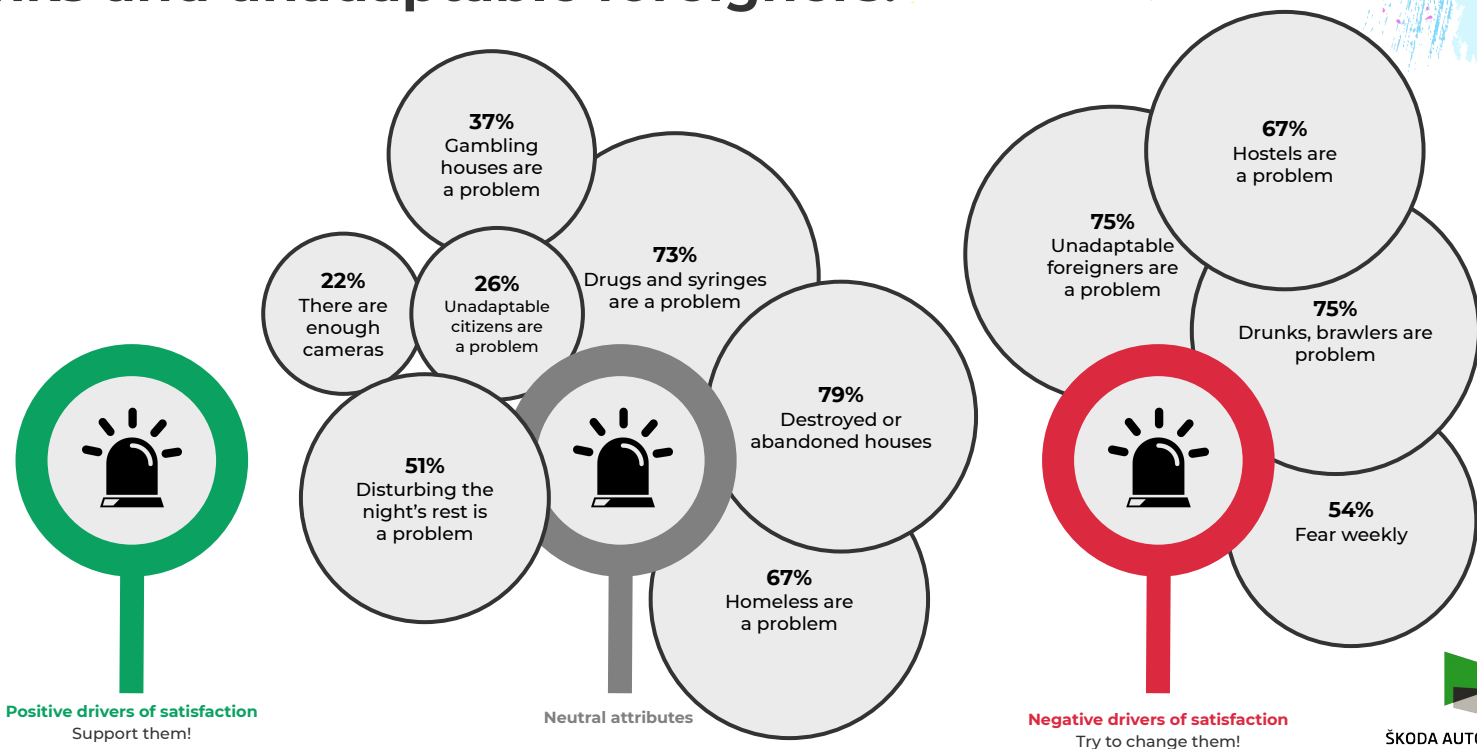

### How often do they feel unsafe?

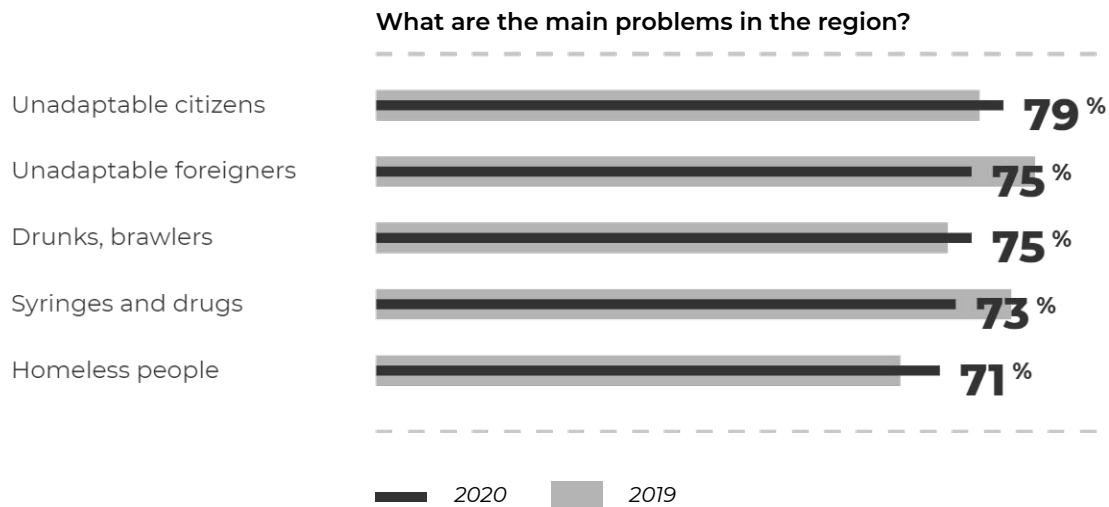

— 2020    — 2019

# Satisfaction is reduced mainly by drunks and unadaptable foreigners.

However, unadaptable foreigners are seen as an issue by less people than in 2019.

## Some people also see hostels or vandalism as major problems.

What are the main problems in the region?

2020

2019

# One half of people thinks there should be more safety cameras in public places.

How do you see the number of safety cameras in public places?

There should be more of them

There are just right numbers of them.

There should be fewer of them.

I don't know at all...

**It was a pleasure.**
